CHEK HOLISTIC LIFESTYLE COACH

Program Overview

The CHEK Holistic Lifestyle Coaching Program (HLC) is a **three-level** program based upon the techniques that have helped thousands of people increase vitality, decrease stress and sculpt the body of their dreams. Each level looks in increasing detail at the underlying causes of disease and stress, considering the body as a "system of systems." Using a coaching model, you will learn how disease and stress are preventable through healthy eating habits, lifestyle management and appropriate types of exercise.

You will understand why every meal, every bout of exercise and every late night has a hormonal consequence. You will be given tools, such as in-depth questionnaires, to assess your clients and allow you to determine their readiness for change.

This program exceeds anything you will learn in any other "wellness course" ... this is optimal health and fitness coaching the CHEK way! As Paul Chek says, "An individual's health lies in his own hands; you are simply there to show him the path."

"Upon completing the [class], it made me realize how empowered I was from my experience. Not only did the HLC class open my eyes to things in my own life that I need to work on, but already the influences that I have received, from this past weekend, are portraying themselves in my interactions with clients, co-workers, staff and friends. My experience at the C.H.E.K Institute was more than just the education I received, but the permanent positive energy that was branded in my soul. Thank you very much to everyone involved!"

Michael Richards - Illinois, USA

This program is designed to teach participants how to coach clients in optimal holistic lifestyle techniques that facilitate the body's natural healing mechanisms, from within their existing scope of practice. It is not intended to be used to diagnose or treat disease. Participants will not become certified as dieticians or clinical nutritionists.

No matter what your profession, you'll likely agree that just because someone is not sick, does not mean he or she is well! Most chronic diseases take years to develop, but a healthy lifestyle can go a long way toward prevention. The information presented in the CHEK Holistic Lifestyle Coach Program does not include 'quick fixes' - which never work long term - but instead uses proven principles which build a strong foundation for health.

Fitness Professionals:

Provide your clients with the missing link to achieve the body they want and to improve their vitality and energy levels.

Chiropractors, Physical Therapists, Rehabilitation Specialists:

The specific assessments and principles taught in this series of courses will help you achieve lasting results and improve the structural integrity of your patients!

Alternative Healthcare Providers and Massage Therapists:

Quickly increase your value by offering your clients practical ways to live a lifestyle more in tune with the therapy you are providing.

I'm not a health or fitness professional. Will I enjoy the course?

Absolutely! HLC 1 is designed for the layperson and professional alike, teaching the foundational principles of the CHEK approach to health and wellness. You can easily apply these techniques and methods to yourself and your family. No previous work or educational requirements are needed to attend.
